Jean-Luc Picard wrote:

Had a great time on this welcoming gas giant. Great food and friendly inhabitants. Met a few locals, after a hard night out woke up 6 light years away in a far forgotten system, with no memories of the night before. That's my kind of fun!! Totally recommend traveling there!

Cecilia wrote:

Been studying this planet for a while and I would recommend it as an example of Jupiter like planets to anyone who is interested in gas giants
